# GOLD TRADE FINANCING OFFER

## Commit Gold Trading Capital for a 3% Monthly Increased Value, Under a 12-month Gold Amortization.

## Peswacoin

Peswacoin is a gold trading tech-driven company that bridges large scale precious metals extraction with a global multi-jurisdictional supply-chain luxury retail storefront ecosystem.

Peswacoin is a global multi-jurisdictional asset, which merges physical gold commodities with global supply chain logistics and high-end retail point-of-sale (POS) hardware, that offers users a dual-redemption model.
Our multi-jurisdictional business nature necessitates mining operation; Gold extraction (raw material production) presence in Ghana (Peswacoin Ltd), to feed our Gold and Gold jewellery products trading licensed entity in Dubai, UAE (Salma Gold & Jewellery Trading) and an administrative head office in London, UK ( Peswacoin Ltd)

We are in the process of progressively establishing the global luxury storefronts retail point-of-sale (POS) matrix in major cities in over 50 countries globally.

## Executive Summary

This proposal outlines a Gold trading capital raise/financing structured under a non-dilutive, 12-month Gold Amortization Schedule. Investment Capital together with the return on investment (ROI) payment obligations are denominated in Gold equivalent in grams and kilograms based on the current market spot rate, providing the Financier/Investor with a high-yield, hard-tangible asset which is a robust inflation hedge, which preserves the investment capital and the increased values within the 12 months amortization time span.

An Investor or Financier is required to deploy a set amount of investment capital into Peswacoin gold trading operations for twelve (12) months, where the investment capital value is scheduled to grow by a 3% target rate monthly. Instead of waiting to receive a lump sum at the end of the twelve months, the total accumulated value of both the capital injected and the accrued increased 12 months value is amortized over 12 months. Thus; paid back to the Financier/Investor in equal monthly installments consisting of both the original principal and the earned growth in pure tangible Gold, based on the time of capital injection LBMA prevailing market price, fixed as the transaction base gold price.

## Commission Offered

To facilitate our potential cooperation, we operate on the basis of an overall commission of five percent (5%) of any total capital sum, injected by an Investor/Financier into Peswacoin for the purpose of financing our gold trade. The 5% commission shall be payable to any Finder such as; Affiliate Marketers, Brokers, Mandates, Introducers, Facilitators and so on.

# Key Mechanics Breakdown

### Trading Capital Base

The initial amount of money the investor/financier commits to Peswacoin would be used to source gold dore at a 12% discounted price, to be minted and/or otherwise for its gold trading e-commerce to generate additional values, based on the 12% bulk Gold dore bars sourcing discounts received.

### 3% Monthly Increased Value

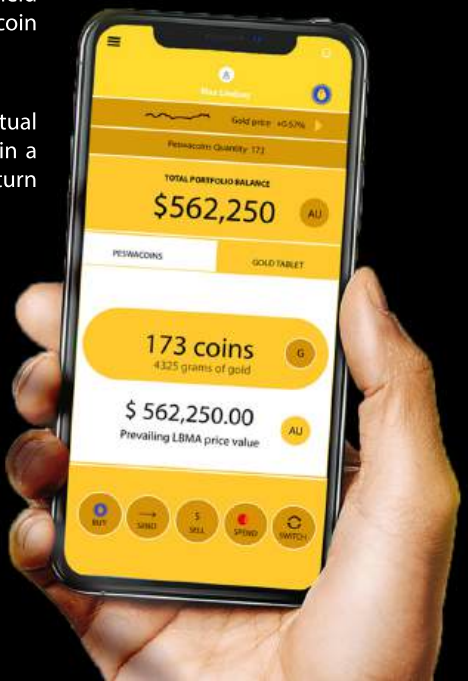

The financial capital injected into Peswacoin commerce operations yields returns based on the gold dore bars sourcing 12% discounts received from our supply sources, out of which 3% is reserved exclusively for the Investor/Financier, due to our overall overhead costs and the 7% Peswacoins sales discounts allotted to our Buyers to achieve sales boost.

### Pro-Rata Paybacks

The Investor/Financier gets to receive monthly payouts in specified Gold quantities consisting of both yield (increased values) and a portion of the Investor/Financier's principal capital sum injected into Peswacoin Ltd.

### 12-Month Amortization

The Gold Trading Financing Agreement has a fixed 12-months term. Over the 12 months contractual period, the capital injected and the accrued increased value is gradually liquidated or "amortized" in a specified Gold quantity and purity. Each monthly gold payout shrinks the outstanding capital and Return on Investment balance down to zero by the end of the 12th month.

# 12-Month Gold Amortization Schedule

The following details the monthly delivery of gold measured in grams or Kilograms and maps out the fiat cash-equivalent values. This ensures the Investor/Financier maintains clear visibility on yields regardless of gold market fluctuations dynamics.

# How the Math Works

With the minimum financial capital requirement of One Hundred Thousand United Dollars (USD$100,000), a return model on a $100,000 capital injection, to demonstrate how an amortized payout schedule works:

- **Total Projected Return:** 3% per month x 12 months = 36% total growth.
- **Total Value to Payout:** $100,000 (Principal sum) + $36,000 (12 months growth)
- **Amortized Monthly Payout:** $136,000 divided by 12 months = $11,333 per month.

Every month you receive $11,333 in Gold or Cash equivalent based on the prevailing market price. By month 12, you have recovered your entire principal plus the 36% total increased value, and the trading contract is completely fulfilled (fully amortized).

# Risks Evaluation

If you are in doubt about the risks associated with this Gold Trading Financing offer, you should consult your Accountant, Tax Consultant, Solicitor, and/or any other independent professional advisor.

# Key Covenants & Trading Desk Protections

To integrate seamlessly with the operations of institutional gold desks and high-net-worth investors, our contract features the following specialized mechanisms:

1. **Physical Delivery Optimization**
   Repayments are optimized for bullion desks. The investor has a perpetual right to demand physical settlement in LBMA Good Delivery Bars (99.95% purity), delivered directly to specified institutional repositories (e.g., Loomis, Brink's, or Malca-Amit) with all logistics, insurance, and chain-of-custody costs borne entirely by the Beneficiary.

2. **Alternative Cash Settlement**
   Alternatively, the Financier/Investor may opt for bankwire transfer (USD/Euro), calculated strictly against the prevailing LBMA Gold Price Fix on the third business day prior to the scheduled monthly pay-out fulfilment date.

3. **Structured Settlement & Delivery Mechanisms**
   The Financier/Investor retains sole discretion over mode of monthly settlement, electable 15 days prior to the payout fulfilment date:

4. **Physical Settlement**
   Delivery of 995 pure allocated minted gold or dore bars to be shipped securely via specialized Air carriers/couriers to the Financier/Investor's designated address at the beneficiary's expense.

5. **Cash Settlement:**
   Electronic USD/Euro bankwire transfer clearing directly into the Financier/Investor's bank account, calculated strictly based the Gold quantity entitled prevailing market price.

# PESWACOIN

We take this opportunity to note that, Peswacoin undertakes significant Know Your Customer (KYC) checks in respect of each potential counter party. We will not transact with any entity that fails to satisfy such KYC checks.

We look forward to the opportunity of working with you.
